

Day 15

Karnish N

(26/7/2025)

Task 1:

Call the api to delete book via api, after the deletion, call the function to fetch the items and using foreach iterate then display

CODING:

```
async function getStateInfo() {
    const res = await fetch("http://localhost:5275/api/StateInfo");
    if(!res.ok)
    {
        console.log("error will be occurred");
    }

    const data = await res.json();
    console.log("State Info:");
    data.forEach((s: any) => {
        console.log(`Id: ${s.id}, Name: ${s.state}`);
    });
}

async function deletestateinfoById(id:number) {
    const response=await
    fetch(`http://localhost:5275/api/StateInfo/${id}`, {
        method: 'DELETE'
    });
    if(!response.ok) {
        console.log("error");
    }
    else{
        console.log(response);
    }
    getStateInfo();
}

deletestateinfoById(21);
```

OUTPUT:

```
Response {
  status: 200,
  statusText: 'OK',
  headers: Headers {
    'content-type': 'application/json; charset=utf-8',
    date: 'Tue, 26 Aug 2025 11:47:40 GMT',
    server: 'Kestrel',
    'transfer-encoding': 'chunked'
  },
  body: ReadableStream { locked: false, state: 'readable', supportsBYOB: true },
  bodyUsed: false,
  ok: true,
  redirected: false,
  type: 'basic',
  url: 'http://localhost:5275/api/StateInfo/21'
}
State Info:
Id: 1, Name: string
Id: 2, Name: Uttar Pradesh
Id: 3, Name: Maharashtra
Id: 4, Name: West Bengal
Id: 5, Name: Tamil Nadu
Id: 6, Name: Karnataka
Id: 7, Name: Kerala
Id: 8, Name: Rajasthan
Id: 9, Name: Punjab
Id: 10, Name: Bihar
Id: 11, Name: Gujarat
Id: 12, Name: Uttar Pradesh
Id: 10, Name: Bihar
Id: 11, Name: Gujarat
Id: 12, Name: Uttar Pradesh
Id: 11, Name: Gujarat
Id: 12, Name: Uttar Pradesh
Id: 10, Name: Bihar
